

1.0 WHAT IS HASANAH MICRO GRANT (HMG)?

The Hasanah Micro Grant (HMG) is a small-scale, trust-based fund that supports grassroots organisations and community groups in implementing creative, local initiatives. It is designed to be accessible and flexible, helping those who are closest to the issues to take timely action where it matters most.

While lasting impact takes time, we believe meaningful change often begins with small, strategic steps. The HMG supports early-stage projects that deliver tangible outputs today, with the potential to grow, scale, or be replicated in the future.

The HMG encourages experimentation, innovation, and documentation of success, guided by but not limited to the Hasanah Theory of Change (TOC). It supports community-based organisations (CBOs) in their growth and transition through capacity building and strategic development.

HMG also aims to spark cooperation, encourage the sharing of resources, and strengthen networks that can collectively grow into larger initiatives or contribute to a broader common cause. It promotes cross-sector collaborations that go beyond traditional grant boundaries for example, integrating craft with mental health support through art therapy.

Furthermore, HMG provides space for emerging grassroots organisations/ CBOs, and social innovators to move beyond the concept stage and explore cross-disciplinary practices.

We invite proposals that align with Hasanah's goals and contribute to any of our five impact areas. Priority will be given to community-led initiatives that are practical, locally grounded, and ready to make a difference.

All applications will be reviewed based on their alignment with our priorities and guided by but not limited to the Hasanah 2020–2030 TOC. Applicants are encouraged to refer to these guided documents when developing their applications.
